

YOUR SPECIALIST FOR
ASSEMBLY AND VISUAL
TESTING SERVICES

WELCOME TO DELTA GMBH

WE TAKE CARE OF YOUR BOTTLENECKS

Peak periods, staff shortage or illness-related lack of resources can be hard to deal with ad hoc. Delta is capable of providing all necessary capacities „overnight“.

In this way, you can continue to focus on your core competency while we support you with your day-to-day business.

Due to our high quality standards, we are a reliable partner of renowned local industrial companies, but also operate nationally and internationally.

WHY DELTA?

FLEXIBILITY

With a high level of resources and optimal planning tools, we are always able to respond to all customer requirements on short notice.

PRECISION

Your success and the product quality have priority. Expertise and experience offer genuine added value.

FULL-SERVICE

Around the clock, without compromises. We offer all the benefits and services related to our portfolio. For your success.

EXPERTISE

Quality and precision start with the qualification of our employees. DELTA stands for a team of specialists and professionals.

EXPERIENCE

From many projects and years of experience, we offer a range of services which has grown with the success of our work.

PERSONAL KONTAKT

Solution-oriented and efficient, we offer you personal consulting, individual offers and permanent support – around the clock

WE ARE YOUR PARTNER FOR OUTSOURCING, EXTENDED WORKBENCH, WAREHOUSE AND LOGISTICS SERVICE, AS WELL AS SORTING AND PACKAGING WORK.

OUR SERVICES

◀ ELECTRICAL INSTALLATION

Installation work of electronic components: attaching confection products with crimp force monitoring, installation of electrical assembly groups, connector assembly, as well as wiring work. We also have flexible facilities for the implementation of customer-specific solutions.

◀ ASSEMBLY AND DISASSEMBLY WORK

From parts assembly to system installation, we offer our customers versatile and professional assembly and disassembly services of the highest standard. Predictable and cost-effective, we are naturally able to respond to ad hoc orders.

◀ METAL AND PLASTIC PROCESSING

Specialists of various trades, as well as cutting edge equipment, guarantee professional and reliable contract work. Finalising and deflashing of plastic, metal and cast parts. From small part processing to the production of system parts with individual part processing, we support you with experience and expertise.

◀ SORTING AND PACKAGING WORK

Dexterity, reliability and care are the competencies where we make the highest demands. Counting, selecting, packing, documenting... – accuracy is key. In accordance with customer definition, we take all the necessary and open measures around the production processes of our clients.

◀ CABLE ASSEMBLY FOR INDUSTRIAL USE

In accordance with specific requirements, we prepare samples, single pieces or series productions in close cooperation with the customer. Our fully automated Crimpcenter with crimp force monitoring produces up to 4,000 assembled single strands per hour. Fully and semi-automatic processing of single strands and cables.

◀ STORAGE, PACKING AND PICKING, PACKAGING AND SHIPPING

Thanks to DELTA's modular service packages, our customers secure efficiency and cost advantages. Only services that are necessary for the individual order process are booked and invoiced. As an extended workbench, we take care of all open services and optimise our customers' processes in doing so.

QUALITY AND TESTING WORK, RECTIFICATION WORK

We secure quality and dimension specifications and dimensional accuracies. Upon request, we provide accurate rectification work and handle the entire packing, storage and logistics.

CUSTOMISED PRODUCTION DOCUMENTATION

Our customised production documentation is an example of optimised organisation and efficiency. We collect and prepare all information relevant for the production of single parts or assembly groups, document it and make it available in accordance with customer requirements.

WAGE AND CONTRACT WORK

We handle the production of products in accordance with individual and project-related quality criteria depending on the requirement. The production is carried out via order processing in form of contract manufacturing and ensures efficient and optimised production costs for our customers.

STAFFING SERVICES

Temporary, project-related or order-bound: we support our customers individually with competent and qualified specialists for all areas. Save personnel costs without compromising on resources, qualifications and competencies

LABOUR LEASING

Permanently employed specialists supplement and support your core team in the context of temporary employment. Our employees will be integrated into your organisation seamlessly in order to support you with all upcoming tasks in an efficient manner and, where appropriate, to change into a permanent position as well.
